

K-LOVE provides the type of music and family values I believe is important to my community, as well as others. There is very little media dedicated to family values anymore. That is what our country is founded on - a belief system based on morals and values. Please don't take that away from us!!

K-LOVE gives peace and love and understanding to our community which desperately needs this kind of station to encourage people to care about one another and know there is hope in the world. The city of Cincinnati would be much worse off without this station.

The service provided by K-LOVE is in the public interest. There needs to be some balance and alternatives to the swearing, cussing and abusive-type language/music quite often heard on so many radio stations today. It helps the public to be aware there are peaceful ways to deal with anger and hatred and that others do care by sharing positive encouraging music and messages.

K-LOVE definitely makes an impact upon society that we need in this day and age.
